

# LIVING *Well* with CHRONIC CONDITIONS

## WORKSHOP MATERIALS

The documents below will take a few moments to download, depending on your Internet connection speed. All documents should open in Microsoft Word, where you will have the opportunity to type text specific to your event and location. You are also encouraged to insert your organization's logo. The margins are adjusted on the document so you cannot type or insert an image on top of the rest of the brochure. Please do not change these settings. The font of the text you type should appear as Frutiger Light. If this font is not available, please use Arial.

## POSTER & FLYER

In the white box near the bottom, we suggest you include the class schedule, class location and your organization's logo.

## COMMUNITY WORKSHOP BROCHURE & LEADER BROCHURE

There are two documents for each brochure: one for the front and back of the brochure and one for the inside. These are intended to be printed back-to-back and then folded into a tri-fold brochure.

On the panel that will be the back of the brochure once it is folded (the center), we suggest you include the location, date, time, facilitators, cost and a phone number to call to register. We also suggest indicating a person to contact for more information in addition to your organization contact information and logo.
